METHODOLOGY
Our teachers use a communicative approach to language teaching. Communication activities designed to develop listening and speaking skills will form a major part of your course. Our aim is to encourage students to develop learning strategies that will help them to study the language independently. Spanish is the classroom language, although our teachers may use translation at times.

The regular attendance of the student will be expected. An 80% attendance rate (4 absences maximum) is necessary in order to take the final exam. Students are expected to contribute to class activities, taking the opportunity to speak Spanish at all times. Participating in class will often involve having completed homework activities in advance. Students should keep up-to-date with their homework, especially where the homework task leads to a classroom activity in a subsequent lesson. Homework is part of the student’s continuous assessment.
