SPAN 343: CULTURAL REALITIES OF SPAIN

COURSE OBJECTIVES

All educational experience abroad is, for any student, a period of cultural adaptation that is complex and meaningful, and therefore worthy of deeper analysis. Through this course, we aim to help the foreign student by guiding them through critical reflections that help with the adaptation and integration into Spanish culture. It is important to analyze Spanish reality in all its aspects: social, occupational, religious, economic, cultural and leisure activities to better understand changes and clashes that students may experience throughout their stay in Spain.

STRUCTURE

Our priority is to encourage student participation in class through interactive activities and reflection on various issues, and to address and analyze the assigned readings for each topic.

Each class ends with a section entitled *Noticias de Actualidad* (current events) where the student will need to bring a newspaper article and discuss it with their peers. Students will participate in a debate regarding all possible questions, comments and discussion about the topics in question.

This course develops reflective-critical thinking by assigning weekly **journal** entries that address the topic for each week. The journals must be handed in one or two days before class. **Each journal entry will receive a grade. When a subject is split, they will write one journal entry that will span 2-3 pages.**

Spanish Studies Abroad also requires that students in this course participate in an intercambio (language exchange). There will be special activities at the Center to meet your exchange partner.

As with all Spanish Studies Abroad courses, “Cultural Realities” is taught in Spanish, and students must adhere to the Spanish-only policy.

COURSE MATERIALS

The reading packet will be available for purchase at Copisteria COPI-andalusi (Calle Carlos Canal 3 y 5). Newspapers will also be used as working and reference material.

EVALUATION

Participation.....50%

Journal.....30%

Current Events.....20%

Students will also be evaluated on their participation and contribution to the class.

AGENDA

Week 1: Introduction to the course

Activity: “Your cultural diversity” + Global Perspectives Inventory (GPI) in the computer room.

Week 2: How to learn to live in a new culture

Activities: “Strategies for learning about other cultures” and “Iceberg: The visible and invisible aspects of a culture.”
